Short product description

SCM USB High Speed SmartCard Reader

- ROM Version: not upgradeable software -

Product description

SCR3310 v2 is a small and ergonomic USB smart card reader, with backside mounting holes. The reader is ISO 7816 compliant, and can be used for cards in ID 1 card format. The smartcard reader is EMV Level 1 certified.

Due to its design, the reader is also ideally suited to be bundled with smart cards and software to support large scale projects roll outs. Typical applications areas of the SCR3310v2 are electronic ID, social security and loyalty programs, e-Couponing, secure network log on, e-Banking as well as online shopping and gaming activities, not for DATEV applications
